## Why we are unique

- **Our workshops are taught by experienced, professional teachers.**  
Real, dedicated teachers make for real learning. Rather than waste precious time with hours of unfocused practice tests, our teachers are continuously interacting with students. This provides immediate feedback and support, while students practice specific targeted strategies.
- **Our 2-day, university developed workshops are comprehensive and effective.**  
We give students a toolkit of strategies that have been perfected over time to maximize student's SAT score. Because the workshop is rigorous and efficient we accomplish results in 2 days that other workshops take weeks to achieve.
- **Students receive a one-of-a-kind *Practice Test* book that not only explains the correct answers, but also why the incorrect answers are wrong.**  
In addition a *Study Guide* book, *Math* and *Verbal Exercise* booklets. The *Study Guide* book is an extensive complement to the workshops providing students with additional examples.

Our 2-day, 12 hour Basic workshop covers all of the sections of the SAT Reasoning Test (math, critical reading, and writing.) We also teach the student overall SAT strategies that allow them to "think like the test-makers."

Our 1-day, 6 hour writing workshop provides more intensive instruction on the required 25-minute essay. This workshop also has an internet follow-up where the student may write additional, timed essays online. These essays are scored, and annotated by professional graders. This workshop is offered only by special request for groups of 10 or more (in combination with the Basic Workshop).
